

WOOJIN PARK

Production Planning & Operations

San Jose, CA | woojinpark.software@gmail.com | (831) 737-3172 | linkedin.com/in/woojinparksoftware | woojinparksoftware.github.io

SUMMARY

Operations professional in food manufacturing who builds weekly and monthly production schedules, manages work orders, and keeps R&D, Sales, Marketing, Supply Chain, and IT aligned on production goals. Turns plant performance data and ERP reporting into actionable efficiency improvements. Background in Management Information Systems, project management, and QA; bilingual in English and Korean.

EXPERIENCE

Pulmuone

Gilroy, CA

Plant Operations Assistant Manager

Sep. 2024 – Present

- Plan weekly and monthly production schedules and release work orders to keep food production runs on target.
- Serve as the key liaison between R&D, Marketing, Sales, Supply Chain (SCM), and IT, keeping cross-functional teams aligned with production goals and customer demand.
- Analyze plant performance data and own daily, weekly, and monthly operations reporting, turning results into actionable insights that improve plant efficiency.
- Support Oracle ERP integration to streamline production planning and reporting workflows.

Samsung Electronics

San Diego, CA

Network QA Engineer, Mobile

Jun. 2024 – Aug. 2024

- Executed 5G network test plans (Sub6 and mmWave) for Verizon, AT&T, and T-Mobile devices, ensuring quality standards were met before release.
- Translated technical test reports into actionable insights for engineers, network analysts, and management to improve device performance.

TVN CJ ENM

Monterey County, CA | Seoul, South Korea

IT Communication Coordinator, Unexpected Business 3

Jun. 2023 – Aug. 2023

- Coordinated IT, Audio, and Production teams on location, translating technical requirements into actionable plans for audio-visual setup and IT infrastructure.
- Provided Korean/English translation for an international production crew, improving communication efficiency and reducing operational delays.

Republic of Korea Army – KATUSA, U.S. Army 2nd Infantry Division

South Korea

Military Intelligence Systems Maintainer / Integrator

Sep. 2020

- Maintained and integrated military intelligence systems as a Korean augmentee serving within a U.S. Army unit.

PROJECTS
